	Scientific presentation and discussion
2.00 – 2:10 pm	Welcome
2:10 – 3.10 pm	PK/PD in the regulatory environment Joga Gobburu , University of Maryland, School of Pharmacy Former head of pharmacometrics at FDA
	Discussion
3.10 - 3.40 pm	Break / informal discussion
3.40 – 5.45 pm	Scientific presentations by junior investigators
5:45 – 6.00 pm	Discussion and closing remarks

Scientific presentations by junior investigators

Time	Presenting author	Title
3:40 pm	MW. Sadiq	A whole-body physiologically based pharmacokinetic model of ciprofloxacin for prediction of bacterial killing at the site of infection
4:05 pm	S. Aitken	Cefepime free minimum concentration to minimum inhibitory concentration ratio predicts clinical failure in patients with Gram-negative bacterial pneumonia
4:30 pm	T-P. Lim	Multiple combination bactericidal testing-guided therapy is effective in the treatment of extensively drug-resistant Gram-negative bacteria infections
4:55 pm	E. Bassères	Antibiotic activity against different <i>Pseudomonas aeruginosa</i> phenotypes in an artificial sputum medium biofilm model
5:20 pm	A. Sultan	Bayesian estimation of levofloxacin pharmacokinetics in patients with tuberculosis

Registration on site:

- ISAP members: free
 - Students: free
 - Non-members: 100 Euro including one year ISAP membership
- Coffee, beverages and snacks will be served.
