

Target Audience

Infectious disease, ICU specialists from academia (or companies), clinical microbiologists, pharmacologists, pharmacists, who work or want to work in the field of antibacterial therapy.

Faculty Members

Francoise van Bambeke, Brussels, Belgium
Roger Brüggemann, Nijmegen, Netherlands
William Couet, Poitiers, France
Lena Friberg, Uppsala, Sweden
Christian Giske, Stockholm, Sweden
Angela Huttner, Geneva, Switzerland
Birgit Koch, Rotterdam, Netherlands
Cornelia Landersdorfer, Parkville, Australia
Anouk Muller, The Hague, Netherlands
Elisabet Nielsen, Uppsala, Sweden
Jason Roberts, Brisbane, Australia
Thomas Tängdén, Uppsala, Sweden
Sebastian Wicha, Hamburg, Germany
Markus Zeitlinger, Vienna, Austria

ESCMID Postgraduate Education Course

Organiser

ESCMID PK/PD of Anti-Infectives Study Group (EPASG)

Other organizing groups

European Committee on Antimicrobial Susceptibility Testing (EUCAST)

International Society of Anti-Infective Pharmacology (ISAP)

Course Coordinators

Markus Zeitlinger, Vienna, Austria

Thomas Tängdén, Uppsala, Sweden

Sebastian Wicha, Hamburg, Germany

Birgit Koch, Rotterdam, Netherlands

Francoise van Bambeke, Brussels, Belgium

Course Objective

This course presents and summarises currently available knowledge on PK/PD of commonly used antibiotics, strategies for setting clinical breakpoints, individualised dosing, and therapeutic drug monitoring. The aim is to provide participants with insights that can be used to optimise antibiotic therapy for different patient groups, infection sites and pathogens.

Organisation

Course Venue and Accommodation

Lagoas Park Hotel, Oeiras
Rua Encosta das Lagoas,
Lagoas Park, Porto Salvo
2740-245 Portugal

Registration Procedure

Register on the ESCMID website at www.escmid.org/education by 1 April 2022

Registration fee

EUR 550 for ESCMID members

EUR 700 for all others

The fee includes tuition, 2 nights' stay in the hotel, 2 breakfasts, 2 lunches, 1 dinner and coffee breaks. Travel is not included. Hotel reservations will be handled on a first-come-first-served basis.

Attendance Grants

ESCMID provides a number of attendance grants for ESCMID "young scientist members". The grant covers the registration fee, but not travel costs. Please apply via the ESCMID website at www.escmid.org/education before 15 February 2022. Applicants will be informed about their acceptance by 1 March 2022

CME Accreditation

The organiser of the course will apply for European CME accreditation through EACCME.

Course Programme

Thursday 21 April, 2022

08:15 – 08:30 **Registration**

08:30 – 08:40 **Welcome and introduction**
Markus Zeitlinger

08:40 – 09:25 **Basics of dosing (interactive)**
Francoise van Bambeke

09:25 – 10:30 **Why do we need to reconsider standard dosing regimens – dosing in special patient populations**
Cornelia Landersdorfer

10:30 – 11:00 **Break**

11:00 – 11:45 **Current strategies for MIC determination and setting clinical breakpoints**
Anouk Muller

11:45 – 12:15 **Population PK modelling for individualised dosing**
Elisabet Nielsen

12:15 – 13:15 **Lunch break**

13:15 – 14:15 **Preclinical infection models and what are the experimental and clinical data supporting PK/PD targets?**
Thomas Tängdén

14:15 – 14:45 **Mathematical modelling using preclinical data to predict dosing strategies**
Lena Friberg

14:45 – 15:00 **Break**

15:00 – 15:45 **Optimal dosing and continuous or prolonged infusion of beta-lactams and vancomycin – what is the evidence?**
Jason Roberts

15:45 – 16:30 **How to optimise the use of aminoglycosides, quinolones and polymyxins; use of therapeutic drug monitoring (clinical case studies, interactive)**
Birgit Koch, Alan Abdulla

16:30 **End of day**

Friday April 22, 2022

08:30 – 09:00 **Optimised dosing regimens for antibiotic combinations**
William Couet

09:00 – 09:45 **Tissue penetration of antibiotics – from measurement to dose adaptation**
Markus Zeitlinger

09:45 – 10:15 **Principles of individualised dosing of antifungals based on therapeutic drug monitoring**
Roger Brüggemann

10:15 – 10:45 **Break**

10:45 – 11:15 **Using decision support systems for dosing of anti-infectives – chances and caveats**
Sebastian Wicha

11:15 – 12:00 **How to apply knowledge on PK/PD and TDM in clinical practice (interactive)**
Thomas Tängdén, Angela Huttner

12:15 – 13:30 **Lunch break**

13:30 – 14:15 **How to apply knowledge on PK/PD and TDM in clinical practice (continued)**
Thomas Tängdén, Angela Huttner

14:15 – 15:00 **Future perspectives – clinical breakpoints and dosing in 20 years?**
Christian Giske

15:00 – 15:30 **Break**

15:30 – 16:00 **Closing remarks and any remaining questions**
Faculty members
